**Software Engineer** 

Jul 2015 — Oct 2016 Bangalore, India

# **Myntra**

Software Engineer Intern

Dec 2014 — Apr 2015 Bangalore, India

Working with the Alexa Design System team. Designing and prototyping a design tool to create device agnostic experiences for Alexa enabled devices.

Designed and prototyped an end-to-end baggage transfer service resulting in an effortless customer experience while saving cost for Delta. Conceptualized human-machine interactions for safer and optimized below-wing operations, currently in deployment.

Designed and developed web apps to increase platform reliability, resulting in a better user experience. Scaled throughput by 10x for high-traffic services. Researched and designed a bot to recommend apparels matching buyers' purchased item.

Prototyped and successfully tested an augmented reality dressing room (virtual trial room) experience on the Microsoft Kinect.

## **Projects**

#### Cascade Redesign

Visual Design Jan 2019 — Mar 2019

Redesigned the Cascade Bicycle Club's website and created a brand guide which could effectively communicate their message across media and bring more members and volunteers on-board.

Conducted 7 usability tests to improve Expedia's Lodging Shopping experience. Compiled a usability report tracking issues, bugs and enhancements with recommendations to

improve the experience.

Using human-centered design principles, prototyped a mobile app to help households recycle clothes. Shared findings with King County and City of Seattle officials.

**Expedia** 

**UX Research** Jan 2019 — Mar 2019

**Clothing Recycling** UX Research + Design Oct 2018 — Dec 2018

### **Awards**

## **Boeing Innovation Challenge**

Jan 2019

## **Facebook Design In The Wild**

Jan 2019

Winner - Designed a cockpit Al assistant that helps pilots with situational awareness and decision-making.

Finalist - Presented our team project on Clothing Recycling. Also featured by Facebook at IxDA 2019.
